# Index

## 1 Technical Report

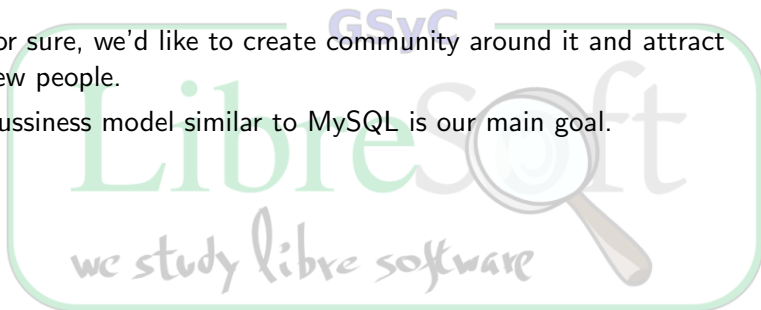

# Who?

- SME company wondering about freeing some software

# Why?

- For sure, we'd like to create community around it and attract new people.
- Bussiness model similar to MySQL is our main goal.

# What we need

- Good reasoning about freeing the software
- Our Competitors nowadays
- Technical Infrastructure needed
- Licenses, we have heard about some BSD or GPL, but not sure!
- Good practices in the source code in FLOSS environment
- Others...

*we study libre software*

# Different Contexts

- Product similar to Open Office (problem: parts of the source code are owned by another company)
- Product similar to Zope/Plone
- Product similar to Kopete or Gaim
- Excelent IDE for Python
- Micro-blogging
- Mobile browser for Internet
